*****Advanced Classes focus on our annual project FutureWorlds. Ask a member or staff!*****

Making The Mixtape- This class will be focusing on the fundamentals and layers of hip hop songwriting. Youth will also be studying the history of hip hop culture amongst different cultures & identities.

Beatmaking/Production - We will be focusing on the fundamentals of Music Production in different genres while teaching the process of how to produce and record audio through fun activities and informational videos as well as hands on work. We will also be diving into how to upload and properly release your own music with promotional ads!

Hip Hop Fusion - This class is a mix and blend of many different styles together to build and expand our foundations and dance styles. Youth will learn to freestyle and create choreography to all kinds of different styles of music.

Exploring Cultural Dance- We will research, study, and learn about dance and movements styles from all around the world. We will learn the what, why, when & how about these cultural dances. Then we will iterate and integrate that knowledge into our own dance styles.

SCREENPRINTING -Youth will gain a versatile knowledge of aspects from screen printing, collaboration, zine making, apparel design & how to use their materials & studio time to the best of their abilities.

INTRO UPCYCLING - This is a beginner / intermediate class that focuses on the basic elements of fashion design by remixing our own clothing! We will explore patchwork, mixing and matching and so much more!

CONCEPTUAL DESIGN - The youth will gain knowledge in conceptualizing art design and art technique. As well as learning entrepreneurship as a freelance artist and learning basic outline on how to sell your work and getting the right compensation for your time and work.

INDEPENDENT DESIGN-This class will explore different styles and techniques of visual art making and then creating pieces in different styles that haven't been done before.

ART THERAPY- Youth will explore how art can be used therapeutically. Youth will learn how colors and themes can help them to relieve stress and express joy .

STUDIO PHOTOGRAPHY- Youth members will walk away from this workshop with the knowledge and skills in shooting with their phones and/or with a standard DSLR, studio lighting and learn some skills in editing using lightroom or other free editing programs. They will have explored composition strategies, basic photography techniques, their own effective art-making approaches, and will have practiced constructive support, critique and reflection.

MULTIMEDIA DESIGN- Everything around us has been designed. Youth will learn the elements of design and how to design space, an image, product, label, logo, t-shirt and more.
